DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 7/5/2005 has been entered.

Information Disclosure Statement

2. The prior art documents submitted by applicant in the Information Disclosure Statement filed on 7/5/2005 have all been considered and made of record (note the attached copy of form PTO – 1449).

Allowable Subject Matter

3. Claims 1 – 10 are allowed.

Art Unit: 2873

4. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 8, for example, which include a solid immersion lens having a spherical surface, a radius of curvature R_L , a refractive index n_L and the sample is observed with the solid immersion lens, sample surface orthogonal to an optical axis and a point located downstream of a spherical center of the optical surface by $k \times (R_L / n_L)$ along the optical axis, where k ($0 < k < 1$) is a coefficient set satisfy the solid immersion lens a geometric aberration characteristic (claim 1); and a sample refractive index equal to the refractive index n_L of the solid immersion lens is $L = R_L + k \times (R_L / n_L)$, where k ($0 < k < 1$) is a coefficient set satisfy the solid immersion lens a geometric aberration characteristic (claim 8).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
